

First Lego League Robotics Team

Volunteers Wanted

Our local robotics tournament at Dartmouth is coming soon, on November 3, and we want your help. Dartmouth Area Robotics Tournament (DART) is a cooperative effort by seventeen local teams, the First Robotics Competition Team and Dartmouth to create a unique learning experience for our kids. The Teams will practice for the Official First Lego League Tournaments, but more important, the kids will meet each other, make friends, and get a sense of themselves as part of a larger community of interest in the Upper Valley.

The entire Upper Valley Robotics Community is mobilized. We already have sixteen coaches and dozens of high school and college students working and training to create a community event. We just need a few more adults to pitch in.

At this event, it will be a lot more fun to participate than to watch
You don't need to be perfect - You just need to be there

Here is the outline of the volunteer jobs reserved for adult volunteers from FLL Teams.

Information desk/Registration	Check teams in. Provide information during the day.
On-Deck Managers	Works outside judging and competition venues checking in teams and recording scores
Practice Table Monitors	Make sure nobody hogs the table. Ensure sure no pieces get lost.
Floater	Be available to fill in as needed
Parking/ Traffic Control	Arrive early and finish before the competition starts
Set Up Staff	Arrive Early
Take Down Staff	Stay Late

If you are able to do one of these jobs, fill in the blanks and give this form to your coach:

Name.....

Team Name.....

Contact Information (preferably email).....

Job or jobs of interest.....

Time available - all day, morning or afternoon.....

Also you can invent your own job. If you are part of a high tech company or alternative energy company, set up an information table. If you have an idea for a contribution you can contact Dave Kovaka at hopabonk@verizon.net.

More information on these jobs is at available on the DART web site:
